

Webinar on

“MOBILE WORKERS AND LEARNERS FOR A COMPETITIVE EUROPE”

An online webinar for HRD personnel in companies
and others interested in the topic

Tuesday, 3 June 2014, 2.30 pm (CET)

WEBINAR DESCRIPTION

In times of growing skill shortages no European company should miss the chance to stick to comprehensive tools helping to increase the mobility of workers across Europe, for a short period of time or permanently.

The European Qualifications Framework (EQF) and the European Credit System for Vocational Education and Training (ECVET) concept are two concrete tools from the toolbox offered by the European Union to fight the migration of skilled workforce to countries outside Europe and to increase the mobility and workers within Europe.

The participants of this webinar interview will receive a comprehensive overview about all benefits coming from using these tools in their companies HR development. Moreover, they will learn about the results from a concrete project for a large scale learner exchange between Spain and Germany within the framework of the German initiative “Job of my Life”. Finally the participants will be provided with additional information on support in the implementation of these European tools in the respective markets.

SETUP OF THE WEBINAR

The webinar will be split into two parts. In the first part of the webinar the expert interview will take place. Afterwards you’ll have the chance to ask questions and to discuss with our experts about the topic.

TARGET GROUP

The webinar targets HRD personnel in companies responsible for recruitment, learning and development and mobility programs for their workforce.

Prior knowledge about the EQF and ECVET are recommended for the participation in this webinar. Please check the euVETsupport webinar “European Transparency Instruments - what's it all about?” for an introduction.

YOUR euVETsupport EXPERTS

Karin Volpato (FLM, ES) is European VET expert with longtime experience in EU programmes. She developed national, bilateral, multilateral programs in different countries addressed to integrate social and economic needs towards sustainable development and individual prosperity putting together companies, training agents, public bodies and non-profit organizations.

Astrid Tietgens (perspektive3 GmbH, DE) is learning and development expert working in this field since more than 15 years. She advises companies in strategic personnel and organization development and project-related training. Her company perspektive3 has designed and delivered many vocational and further development trainings for global companies and SMEs.
